

Racer Annual Ryegrass

Pasture Grasses

Stock Type Dairy, Sheep, Beef, Deer

If you like *Hogan*, you'll love *Racer*. Our new supercharged annual establishes 8% faster, and provides unbeaten high ME winter yield.

Upgrade

Hogan establishes rapidly and out grows 30+ year old *Tama* by over 800kg DM/ha. If you value this cool season growth at \$0.50/kg DM, *Hogan's* advantage is \$400/ha extra profit, i.e. a 8 fold return on the extra \$50/ha it costs to sow *Hogan* over *Tama*

Unbeaten in winter

Racer starts fast, with 8% quicker establishment than *Hogan*. And in the National Forage Variety Trials (NFVT) *Racer* is unbeaten for winter growth.

2025-26 NFVT Annual ryegrass yields: All New Zealand trials - winter yield

Extra \$95/ha

Overall *Racer* produces 4% more drymatter yield than *Hogan*, or an extra 190 kg DM/ha. Putting a \$0.50 kg DM/ha value on this nutritious feed that's \$95/ha return on investment (or an extra \$3.15/kg of seed return!) over *Hogan*.

System fit

Racer is a late heading (+15 days) tetraploid, with very high feed quality. It does not contain endophyte, and is designed to be a fast establishing 6-12 month crop.

Sowing Hogan

Dairy, Sheep, Beef, Deer		kg/ha
Winter-spring crop	Racer annual ryegrass*	30
	Total	30
Winter-spring crop with annual clovers	Racer annual ryegrass*	22
	Laser Persian clover	8
	Total	30

* Tetraploids are sown at a higher rate than diploids, because of their larger seed.

Racer annual ryegrass is owned & marketed by Barenbrug, & protected under the NZ Plant Variety Rights Act
